

The port of Lysekil

is a convenient and flexible port with a strategic location between Oslo and Gothenburg on the Swedish west coast. With a short and open entrance from the North Sea it allows efficient transports both to European ports and transshipment to the Baltic ports.

The port's catchment area stretches over Sweden and parts of Norway. It offer services to Norway, Western European countries, the Mediterranean, and to North Africa. Lysekil is an effective and flexible port with extensive experience of handling different kinds of cargo and can accept vessels up to 50 000 DWT.

Berths

Grötörev – Length 190 meters, depth 11 m.
 Gullmar berth – Length 185 m, depth 10 m
 Grötö berth – Length 165 m, depth 7 m.

Commodities

Sawn goods, bulk goods such as sand, gravel, pellets, chalk, talc, salt, etc. Full container handling with a capacity of about 20 units per hour. Resources for stuffing and stripping also available.

Project cargoes

Different kind of project cargoes are regularly handled such as steel, goods, rocks, board and heavy cargoes. Lysekil handles special loads for the Preem refinery in Brofjorden, among others.

Infrastructure

Lysekil offers environment friendly rail transports straight to/from the port with tracks to all berths and a large shunting yard.

Situated less than 30 kilometers west of the E6 highway, with approach roads from both the north and the south of the Gullmars Fjord, the port is only 30 minutes away.

Resources

Lysekil houses a flexible crane park with a lifting capacity of up to 80 tons for handling containers, bulk, timber, etc. An extensive truck park with a lifting capacity of 3-45 tons also available. Additionally they also have terminal tractors and specialized equipment for handling forest products and project loads. In the port there are several large warehouses for storing goods.

In Lysekil SDK Shipping combined with its sister company, Franck & Tobiesen (also part of Shipping.dk), offers a full range of shipping services for all types of vessels calling the ports.

We offer proactive and dedicated 24-hour service and always aim to be as cost effective as possible to the benefit of our customers.

Lysekil is also a perfect cruise destination!

An excellent alternative for any Scandinavian cruise. With only one-hour pilotage in scenic waters it's easy to access and the pilots have 24 hours service. Berth is situated a 20-minute walk from the city center, making it easy for a passengers and crew to experience the rural city charm of a Swedish fishing town. Visit the Lysekil Church, dating to 1901, and then learn about the seas around Sweden at the Havets Hus aquarium before heading to the Vikarvet Museum. Enjoy a peaceful walk among the famous granite cliffs or take a boat ride along stunning Gullmarsfjord and the archipelago of Sweden's west coast.
